adoption," approved April 2, 1873, and the act entitled "An act providing for State taxes on railroads and the more efficient collection thereof," approved April 3d, 1876, and the supplement thereto," approved April 22, 1876.

2d. The railroads which have contracts with the State under the decisions of the courts, to wit:

The railroads owned by the Pennsylvania Railroad Company and the Morris and Essex Railroad, the latter leased by the Delaware, Lackawanna and Western Railroad.

3rd. Foreign railroads operated in this State, but not coming within either of the above classes such as come within the decision of the Supreme Court in the case of the State vs. Mutchler, 13 Vroom, p. 461.

The legislation of the State shows a discrimination in favor of railroads as against all other business interests and the advantages thus held, are liberally construed by the courts in favor of the railroads and against the public.

There is no reason why the owners of railroads whether they have been incorporated in this State or by a foreign State should have privileges denied to our own citizens.

There is no reason why their profits should be increased by imposing heavier burdens upon our own people, which necessarily results by relieving them.

The system of railroad taxation is not even uniform, railroads coming under the first classification pay municipal tax, but not as the citizen pays it.

The citizen pays the full rate of taxation, whereas railroad companies are in the first place entitled to an exemption of 10 acres of land at their terminus on the river front, which is the most valuable property they own in the city, and in addition are exempt from taxation on 100 feet in width of their road bed and track and after making these deductions are only taxed one per cent on what is left, while the taxation against the citizen for municipal purposes is unlimited, moreover the valuations of what is left is made by a State official and not by our local assessors.

The Pennsylvania Railroad and Delaware, Lackawanna and Western Railroad pay no tax whatever to the city for any of their railroad property.

The Legislature cannot tax these corporations for municipal purposes, as the highest court in this State and the Supreme Court of the United States hold that these corporations or their lessors have contracts of exemption from taxation, which are irrepealable by the Legislature.

The practical result of railroad legislation in this State as it affects our city is to exempt this class of property or make such discriminations in its favor, as to increase our rate of municipal taxation from 20 to 30 per cent.

This result is certainly unjust to our people. It imperils our credit; it increases our taxes and threatens in the near future serious evils.

That there should be a remedy devised to relieve us from this injustice, all honest and fair-minded men will admit. A bill was presented to the Legislature at its last session seeking to partially mitigate this evil by having the State remit to us such portion of its taxes as we would be equitably entitled to if this class of property were subject to taxation by our city, but as the result of such legislation would have been ultimately to compel other parts of the State to raise by tax the amount for which we got the benefit, it failed to secure the requisite number of votes.

It is hardly reasonable to believe that other communities will consent to legislation which will relieve us by burdening themselves. We must seek the remedy in another direction.

The railroad companies must pay their just share of taxes to the city, not by burdening the agricultural districts, but by having their property subject to taxation the same as an individual. I cannot see any reason why these corporations should stand in a different position from individuals. It is claimed that the railroads could not be operated at a profit if they were subjected to ordinary taxation, but the State applies no such rule to the citizen: if the rental of his land does not yield him a profit, yet they continue to tax him; if the business of the citizen is unprofitable they do not relieve him, why then should they relieve the railroad companies?

Let the Legislature permit the railroad corporations to increase their charges for transportation of persons and property, if it is necessary in order to make them self-sustaining.

The practical remedy is to abolish in a legal way the inequalities which now exist and to place railroad property under laws which will subject its property to the same burdens as the property of individuals. Various remedies and plans have been suggested, but it seems to me they all rest upon the idea of defying the decisions of the courts or upon proposed legislation, which will be in violation of the constitution as it now stands. What we want is practical relief: we want laws that can and must be enforced and respected by the courts.

Before the Legislature can relieve us without burdening other parts of the State, we must, I think, obtain the passage of a constitutional amendment which will provide a legal method of extinguishing the irrepealable contracts now existing.

It is true that the Legislature could now subject all railroad property in the State except the Pennsylvania Railroad and Delaware, Lackawanna & Western Railroad to the same taxation as the property of an individual, but it would be unjust to the other great railroad corporations in our midst whilst the Pennsylvania Railroad and Delaware, Lackawanna & Western Railroad pay nothing to our city on their railroad property.

The remedy, in my judgment, is to secure the passage of a constitutional amendment, provide a legal mode of extinguishing these irrepealable contracts by payment of compensation to be determined by a jury under the action of the Courts and by a further constitutional amendment making all railroad property liable to the same tax as the property of an individual.

Our citizens should urge upon the Constitutional Commission created under an act of the last Legislature the adoption of such provisions as will give us the relief to which we are entitled.

I recommend that careful and rigid economy should be practiced in the several departments.

Favoritism should have no place in a municipal corporation.

The extension of favors should not be displayed in violation of laws and ordinances, but all, from the humblest to the richest, should be treated alike.

BOARD OF ALDERMEN.

This Board has only nominal powers, and influence in the city government necessarily confined to smaller matters of importance.

The important duty, however, of selecting members of the Board of Finance and Taxation devolves on this Board, and too much care cannot be taken in electing only such men who are ready capable of grasping matters of financial importance.

The granting of licenses has been a source of considerable income to our city, and the receipts from this source have exceeded those of the preceding year.

Many privileges are granted by this Board which in other cities require the payment of a license fee, namely—the erection of sign posts, awnings, etc. and it would be well for your Board to look into the matter, and, if advisable, to enact ordinances covering this matter. I also call your attention to the law passed at the last session of the Legislature under which ordinances can be enacted to compel the removal of snow and ice from the sidewalks and gutters of our streets.

BOARD OF FINANCE AND TAXATION.

This Board has continued to earn and enjoy the confidence of our citizens and our creditors by the uniform steadfastness to their avowed principles of running the government of our city in the most practical and economical manner.

In some instances their economy and great

interest for the city's financial good led them to make a few slight errors in making their annual appropriations, namely, in not providing liberally for teachers' salaries and for the reconstruction of streets and sewers, but it is better that they make such mistakes than to appropriate moneys in excess of wants, thereby creating a chance for possible waste or corruption.

I congratulate the Board on the efficient manner in which they have conducted the finances of our city, and trust that the time may come when bonds falling due will be replaced by four per cents. sold at par or above, thereby resuming our place as to credit among our sister cities in the United States.

I recommend to your Board the continuance of making appropriations sufficient only that the several Boards constituting our City Government can conduct the affairs of our city in a good and efficient manner. The recent act placing additional responsibility in your hands in requiring your concurrence in the expenditures of the Water Department will enable your Board to check all needless or wasteful expenditures.

I also recommend that you appropriate sufficient money in the next tax levy so as to enable the Board of Public Works to build one or two additional school houses, the need of which is sorely felt; sufficient money to repave all streets on which wooden pavements are at present (as one of the principal requirements of a city is good and sound pavements on her streets) and an appropriation for the purpose of building a vault for the preservation of the city's books, papers and maps.

BOARD OF EDUCATION.

This Board has faithfully performed its duties which were very onerous on account of the insufficient appropriation made for teachers salaries, but which in the next fiscal year will no doubt be remedied. For want of room a large number of children have been turned away and deprived of the advantages of instruction.

This should not be; every child should have the advantage and opportunity of schooling. At least one or two new school houses should be erected, so as to relieve the overcrowded condition of the schools.

I recommend to your Board, if possible, and the appropriations allow the same, the reopening of a few evening schools, as we have a large population of old and young people who would gladly take advantage of the same.

Our schools are sustained by all citizens without regard to politics and should be kept entirely free from political influence.

Teachers should be appointed and promoted simply for their efficiency. Political or partisan considerations should not prevail in the appointment or promotion.

BOARD OF PUBLIC WORKS.

This Board, which has the control of our streets and sewers, also controls our water supply.

It is unquestionably one of the most important Boards constituting our government, and too much care cannot be taken in the discharge of the duties devolving upon it. It has the building of all new sewers and streets, also the erection of all new buildings and the repairs of same.

During the past year but very few new improvements were made, and right here I would recommend that it is highly necessary for a city of our size and commercial standing to furnish roads and streets fit for driving purposes.

We are sadly in need of the same. Our laboring citizens could be provided with plenty of work repairing streets already paved and building new ones, whereas our more wealthy citizens could be retained amongst us provided we would furnish them with driving roads.

I recommend that your Board repave all streets which have been paved with wooden pavement, as the same is entirely worn out and worthless.

We owe it to all our business men to provide properly paved streets.

I also recommend that your Board take such steps as you may deem proper to establish and build a grand continuous thoroughfare fit for all purposes throughout our entire city which, if done, will bring thousands of people to live amongst us who at present see no inducement to settle here.

All applications for sewers should be granted, as the health and prosperity of our citizens depends on proper sewerage. To supply proper, sufficient and pure water is one of the paramount duties of your Board.

The new reservoir should be completed at once, and the several localities of our city which are now deprived of the benefits of a sufficient supply of water relieved.

The collection of water rents has been better attended to in the past year than formerly. The receipts from water have been greater, but the expenses have also been increased by reason of laying new supply pipes

I would recommend that your Board, in conjunction with the Board of Finance and Taxation, make application to the next Legislature for the creation of a water sinking fund, the income of which should be at least 5 per cent annually of the total receipts on water account, and to be used solely for the purpose of paying water bonds as they fall due.

I further recommend that the ashes collected by the city carts be used in filling in sunken lots or streets owned by the city, or if none such exist, that the same be sold and the receipts thereof turned into the treasury.

Complaints have been made as to the impure state of our water, and if these complaints are well founded, measures should be adopted to secure a purer supply of wholesome water.

FIRE DEPARTMENT.

During the past year our city has been spared from great fires and the losses have been comparatively small.

This no doubt reverts to the credit of the department, but more discipline should be enforced in this department.

The engines, tenders and hook and ladders are in as good a working order as could be expected, considering the age of some of the same.

I recommend that fire alarm connections be made between all school houses and churches and other buildings where people congregate and the department, as I feel satisfied, that in case of fire or panic, danger to human life will be greatly diminished by adopting this course. Old fire hydrants in so called Old Jersey City should be replaced by those of new and improved pattern, because in winter, should a fire occurr, it would take considerable time to find a hydrant which has two feet or more of snow and ice on the top of it. Your Board should request the Board of Public Works to investigate this matter at once.

POLICE DEPARTMENT.

This Board has in addition to the control of the police the responsibility of supplying the streets with light and charge of the Charity Hospital.

The number of policemen employed is comparatively small considering the enormous territory required to be traversed. The duties of caring for and watching our citizens' property and lives has been, under the circumstances, well taken care of.

In the matter of light your Board allowed some portions of our city to remain in total darkness for a period of nearly three months, and great and serious complaints and inconvenience has been the result.

This matter of advertising and receiving of proposals for lighting the streets with Naphta gas should be attended to in the month of September, so that your Board would have ample time to reject or readvertise in time before the expiration of the existing contract.

The last Legislature passed a law under which the Hospital property could be sold. The present Hospital is a disgrace to Jersey City.

Immediate steps should be taken towards disposing of the property, and the erection of a suitable building in some healthy locality, at or near the centre of the city, so that it would be

easily accessible from all sections, and your Board ought to consult with the Boards of Finance and Public Works at an early date in regard to this matter.

At the next session of the Legislature your Board should take steps towards the creation and erection of a reform school, under the jurisdiction of your Board and the Police Justices, so that youthful criminals under age can be sent to this institution.

The practice of sending such criminals to jail or even to Snake Hill to associate with older criminals is very injurious, and instead of effecting reform it generally launches a class of criminals on the community who otherwise could easily have been reformed.

CONCLUSION.

I have now called attention to such matters as seem especially to deserve your consideration.

The welfare of the city depends in a great measure upon the manner in which we discharge our duties. Jersey City is to-day the second city in New Jersey—a proud position, and one that can only be maintained by the enterprise of her citizens.

The city government should within the scope of its powers aid every enterprise calculated to give additional facilities for the transaction of business. Our manufacturers and merchants should be encouraged and their interests fostered, capital made secure and labor honored and defended by all the means within the power of municipal authority.

I cannot close this communication without acknowledging the uniform courtesy ex ended to me by the various heads of departments during the past year, and hope that the same goodwill may continue.

While we may differ upon matters concerning the conducting of the business of our city government, let us never forget that we all are interested in the welfare of our city and responsible for a just and economical government to our citizens.

Respectfully submitted,

I. W. TAUSSIG, Mayor.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor filed in the City Clerk's office on the 26th inst., and the same was read, received and ordered to be entered in the minutes.

MAYOR'S OFFICE,
Jersey City, July 26, 1881.

Honorable Board of Aldermen:

Gentlemen—I herewith return to you without my approval the ordinance passed by your Honorable Body on the 12th inst., entitled "An ordinance to amend an ordinance entitled "An ordinance to authorize the Long Dock Company to lay three additional tracks across Pavonia avenue," for the following reasons: The style of gate to be erected is not mentioned, and if it is intended to erect gates similar to those now in use, I object most decidedly to any more of that class being erected as they are an eyesore to the public and tend to depreciate the value of surrounding property.

The property owners most seriously object to the same, for it not only depreciates the value of their property, but obstructs and mars the principal thoroughfare in that part of the city.

The excellent and plain style of gate in use in the city of Newark at Railroad crossings are effective, and I would suggest that your Board pass an ordinance substituting the Newark style of gate and I will approve of same.

Respectfully submitted,
I. W. TAUSSIG, Mayor.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor filed in the City Clerk's office on the 12th inst. at 11:30 o'clock a. m. and the same was read, received and ordered to be entered in full in the minutes.

EXECUTIVE DEPARTMENT, MAYOR'S OFFICE, City Hall, Jersey City, Nov. 11, 1881.

To the Honorable, the Board of Aldermen:

Gentlemen—I herewith return to you without my approval an ordinance to authorize the Standard Oil Company to lay, maintain, repair and operate pipe lines to convey crude Petroleum oil in certain streets and parts of streets in Jersey City, passed Nov. 1st and presented to me for approval November 2d, 1881.

This ordinance, which grants permission to the Standard Oil Co., to lay, maintain, etc., pipe lines beneath the surface of our streets for the purpose of conveying oil seems to me to have been passed without giving due consideration to any rights our citizens and property owners might have.

My objections are as follows:

That the laying of these pipes would depreciate in value not only all property beneath which they might be laid, but also adjoining property and thereby increase taxation.

That while on the streets affected by this ordinance there might be but few houses at present, the laying of lines of pipe would prevent any future improvements being made.

That no consideration for the granting of this vast privilege has been exacted from the Standard Oil Company

That no provision has been made requiring the written agreement to be given by the company agreeing to pay taxes for the imbedded pipes and the oil they might contain.

That the amount of bond required to be executed to the city, namely, $10,000 (ten thousand dollars) to indemnify and save harmless the Mayor and Aldermen of Jersey City from all damages, etc., that may be awarded by reason of damage or injury to persons or corporations in opening streets, laying or maintaining, repairing or operating pipe lines, is entirely too small; the amount should certainly be largely increased.

That no provision is made in the ordinance for any supervision by the city authorities of the work of laying the pipes beneath the surface of streets

This corporation is a gigantic monopoly, crushing all legitimate mercantile opposition and entitled to no favors at our hands.

It arbitrarily fixes the price of oil for the entire world and causes the poor man's light (kerosene) to cost just twice and thrice its legitimate value and makes every consumer of oil pay tribute to its grasping and soulless policy.

The Standard Oil Company could afford to pay a handsome round sum of money into the city treasury for this privilege, if granted at all, especially as they are not in the habit of allowing considerations of this nature to thwart their purposes or plans.

The granting of privileges of this nature to corporations or individuals should be paid for and revert to the benefit of our treasury.

It seems strange to me that your Board which has passed so many ordinances for the purpose of maintaining, keeping or recovering the rights our city is entitled to, should pass an ordinance of this kind.

It is certainly of no benefit to our citizens nor adds to our property valuation nor enriches our Treasury, whereas, in fact, it is simply allowing a corporation, the worst monopoly in the world, to tear up our streets and place pipes therein containing a dangerous fluid.

For these reasons I return this ordinance without my signature, and trust that on second thought you will agree with me as to the injustice of granting such an immense privilege without large and adequate considerations, and without sufficient guarantees for the faithful performance of the same in return for any possible contingencies which might arise.

Respectfully submitted,

I. W. TAUSSIG, Mayor.

REPORT OF SELECT COMMITTEE.

The following report was presented, received ordered to be entered in the minutes and Committee discharged.

Hon. Board of Aldermen:

The special committee appointed November 22, 1881, to investigate and report concerning the subject matter of an assertion made before Police Justice Peloubet during the trial of certain employees of the New Jersey Mutual Telegraph Company to the effect that an application of said company for the designation of a route for telegraph could not or would not be granted without paying the members of the Board for the grant, respectfully report that your committee deemed it advisable to place the matter in the hands of the Corporation Counsel who communicated with Mr. William E. Gummere, the gentleman who made the assertion reported in the papers, asking that the charge made by him should either be proved or that he should withdraw it as publicly as he made it.

The Corporation Counsel received this day from Mr Gummere his reply wherein he writes that "his statement was made in the heat of argument and under excitement," and admitting "that it ought not to have been made, and if he had reflected it would not have been made; so far as it reflects upon the integrity of the Board of Aldermen he will not attempt to justify it and desires to withdraw it."

The language herein recited is quoted from a letter to the Corporation Counsel and can be produced at any time.

Your committee deem the answer sufficient and would therefore respectfully ask to be discharged.

Very respectfully,

E. E. DATZ,
W. H. FURMAN,
JAS. F. GANNON,
Special Committee.

By Alderman Datz and adopted:

Whereas, During the last few years several telegraph companies or their agents have erected poles on private property to enable the placing through our city of wires which must necessarily cross our public streets; and

Whereas, The law which requires the consent of the corporate authorities for the erection of poles is rendered nugatory by our citizens in giving consent to the erection of poles in rear yards and in vacant lots; and

Whereas, Such action by our citizens turns to ridicule the efforts of our police and other authorities to prevent the unsightly array of poles and wires without lawful authority on the plea of public necessity, or in other words, that a telegraph company, no matter what damage they may do to sidewalks or the property of the public, must be accommodated and permitted to do as they may elect; therefore

Resolved, That in the opinion of this Board the placing of wires across our streets and from poles standing on private property should not be permitted without the consent of the Mayor and Aldermen.

Resolved, That the Corporation Counsel be requested to transmit to this Board his written opinion as to the power and authority of the Board of Aldermen to prevent, regulate or prohibit the erection of any more telegraph poles, whether on private or public property, and the power of this Board to prevent the stretching of wires across public thoroughfares from poles standing on private property.

A communication from A. L. McDermott, Corporation Attorney, in answer to resolution of the 27th December, 1881, requesting the Board of Finance and Taxation to direct him to commence an action of ejectment for possession of the water front at the foot of Grand street against the United Railroads of New Jersey, the Associates of the Jersey Company or either of them in order that said case may be settled and determined in the Courts of this State, setting forth that such an action cannot be maintained, that the land in question is occupied by the International Navigation Company, a corporation of the State of Pennsylvania, and any action of ejectment must be directed against the company who could remove the case into the United States Courts, as has been done in the ejectment suit brought against the Pennsylvania Rail Road Co., to recover the water front at the foot of Sussex street, that the questions in the latter case are similar to those which would be raised in an action for the water front at the foot of Grand street, and the decision in that case will govern all; that the associates of the Jersey Company who are the lessors of the property at the foot of Grand street, were in possession, the action directed as aforesaid might be maintained in our state courts; but under the circumstances nothing could come of such a suit except expense to the city, section three (3) of "an Act concerning the action of ejectment, revised statutes, page 326, provides that," the defendant in the action shall be the person in possession, if the premises are occupied. The fourth section of this act provides that the plaintiff may join other persons than the occupant, but such joinder would not prevent the lessees—a foreign corporation—from removing the cause into the Federal Courts, was presented, received and ordered filed

Invitation to attend annual ball of Wide-awake Club, at Freudenberger's Dramatic Hall, on South street, Tuesday evening, February 21 1882. Accepted.

Communication from Charles Siedler and others, the committee appointed by the Mayor pursuant to resolution passed January 10, 1882, setting forth "that they have had three sessions at which they were assisted by the advice and counsel of the Corporation Counsel, Hon. Leon Aubett. and have thoroughly discussed the subject matter in question and unanimously concur in the views of the Board as set forth in the preamble and resolution, viz; That the governmental powers of Jersey City should be vested in a Mayor and Board of Aldermen elected by the people, but in view of the fact that no special legislation can be obtained for the government of cities under our present revised constitution they see no immediate method of accomplishing that end except through an act which will be general in its adaptation to the government of all cities in the state. Such an act was reported to the legislative body sitting in 1880 by the legislative commission appointed for that purpose, and this act having been carefully and thoroughly considered by the committee in all its parts is deemed by them sufficient to meet the wants and requirements of each and every city in the state, and its passage by the Honorable Legislature would enable the city of Jersey City under its provisions to administer the government honestly, economically and conservatively, for the best interests of the citizens and tax-payers. Under it the taxes and assessments could be collected efficiently and promptly, and the credit of the city maintained and placed upon a sound basis."

The committee have recommended the passage of this act by the Legislature &c. Ordered filed.

Communication from the Central Committee of the Anti-Monopoly Union requesting the calling and holding of a public meeting at the City Hall or elsewhere, for the purpose of giving the citizens an opportunity to express their views as to the policy of allowing any person or corporation to lay railroad tracks in the streets. Dear Sir—You will please issue notices for a special meeting of the Board of Aldermen to be held at the Aldermanic Chamber, City Hall, on Monday, the 6th inst., at one o'clock p m. for the purpose of appointing a committee to protest against the passage by the Legislature of Senate bills Nos 167, 139 and 89, and to attend the sessions of the Legislature until its final adjournment.

HENRY PUSTER,
JOHN F. KELLY,
G. D. VAN REIPEN,

Jersey City, March 4, 1882.

The following resolution was offered by Alderman Puster and adopted:

Resolved, That a Special Committee of Six be appointed to proceed to Trenton to attend the sessions of the Legislature until its final adjournment to protest against the passage of Senate Bills Nos. 167, 139 and 89, and such other bills as may be detrimental to the interests of Jersey City.

On motion of Alderman Gannon the Board took a recess for fifteen minutes.

On reassembling the following resolutions were presented by Alderman Ringle and unanimously adopted:

Resolved, That the Board of Aldermen as representatives of the people of Jersey City, most earnestly protest against the passage by the Legislature of bills known as Senate bills Nos. 167, 139 and 89, as measures which do and are intended to deprive the citizens of Jersey City of rights which belong to municipalities and which rights in Jersey City are peculiarly affected by such proposed legislation because of the geographical location of our city.

Resolved, That the right to locate and open streets proposed to be prevented by said bills, and the stoppage of suits now pending to recover control of our water front for the benefit of our citizens by the passage of said bills are an outrage upon the community and an encroachment upon the privileges which should be possessed by every city and which we believe are legitimately our inheritance.

Resolved, That we call the attention of the Senator of Hudson county and members of the House of Assembly to said measures and urgently demand their opposition to said bills and all measures which seek to deprive our city and its citizens from the rights so long exercised by them.

Resolved, That one hundred and fifty copies of the foregoing resolutions be printed and sent to the Senator from Hudson county and members of Assembly from Jersey City.

On motion of Alderman Gannon the Board then adjourned.

Whereas, The Legislature have been asked by our representatives to pass an act which will allow the payment to our city of monies now paid to the State, which monies are the product of a small tax levied by the State in lieu of all other taxes; and

Whereas, The passage of a bill to allow the payment of this small amount is resisted either through the selfishness of legislators or at the bidding of these corporations; therefore

Resolved, That the Board of Aldermen of Jersey City demand at the hands of the Senator and Members of Assembly from Hudson county the introduction of an act and their efforts to to pass it, providing that Jersey City and all other places suffering from unjust and discriminating legislation of the character hereinbefore described shall be relieved from all necessity and responsibility to care for or protect all property within the city limits of all railroad corporations from fire, theft or mob violence and that such care and protection be provided and paid for by the corporations or by the State which reaps the benefit of its unjust, discriminating taxation

Whereas, Such bill is intended to and will prevent the citizens of Hudson County from free and uninterrupted use of the streets leading to tide water; and

Whereas, Such bill from the title is a delusion and a snare, robbing the people of their inalienable rights under the plea of increasing the revenues of the State for support of free schools, but in reality decreasing said fund by preventing any shore owner from claiming the shore front any where on the borders of this county, and particularly on the Hudson River; therefore,

Resolved, That the Board of Aldermen of Jersey City, as representatives of the people, do most earnestly and solemnly protest against said enactment of Senate Bill No. 167, and on behalf of our fellow-citizens, chosen as their representatives, respectfully and earnestly petition the Honorable George C. By Alderman Gannon

Whereas, To be a Roman Citizen in the days when Rome was great and powerful, ere the corruption of her public servants, or the effeminacy of those who guided the Ship of State lowered her prestige before the nations, was one of the greatest privileges that could be conferred on man and insured him protection in all lands; and

Whereas, To be a citizen of this Republic, the greatest, freest and most liberal form of government that has ever been established in which the will of the people is supreme, should be a far more valuable privilege than any that was conferred on the citizens of Rome and

Whereas, Several citizens of this Republic have been and are now confined in English jails for no other apparent reason than being adopted citizens of this Republic and are treated as common felons and their rights and privileges as American citizens have been trampled upon by the government of Great Britain and their claim for protection from the provisions of the tyranical coercion act has been repudiated and ignored by James Russell Lowell, minister of this Republic at the Court of St. James, who seems to have made himself the special advocate of British tyranny against the liberties of his fellow-citizens to please his aristocratic associates in London, and

Whereas, The rights of American citizens as upheld by this government through Secretary of State Marcy and Commander Ingraham, of the Navy, against the claims of Austria in the case of Martin Kosta, an embryo citizen of the United States, have been basely surrendered by this government through Secretary of State James G. Blaine and James Russel Lowell, our Minister to England, and

Whereas, The said James Russel Lowell has pusillanimously submitted to the claim of Earl Granville and said "it was futile to claim otherwise" That American citizens are not entitled to any more privileges than the subjects of Queen Victorie, and must be bound by the provisions of every tyrannical and oppressive act passed by the government of England against the lives and liberties of their own subjects. Be it

Resolved, That the members of Board of Aldermen of Jersey City enter our solemn protest against the base surrender by James G. Blaine and James Russel Lowell of our rights as citizens of this Republic.

Resolved, That we respectfully but earnestly call upon the President of the United States to uphold and sustain American citizens in their right to life, liberty and the pursuit of happiness, while residing in Great Britain or any

other land and that he shall insist that they shall not be deprived of their liberty unless charged with the commission of some crime for which they shall be brought to a speedy trial under the ordinary law governing such offences.

Resolved, That we believe the pusillanimity displayed by James Russell Lowell in his intercourse with Earl Granville on the question of protecting American citizens has demonstrated his unfitness to represent this Republic at the Court of St. James, we therefore respectfully ask the President of the United States to recall him and fill his place by appointing some citizen who will protect our fellow citizens and uphold the honor of our country.

Resolved, That copies of the foregoing preamble and resolution signed by the Mayor, the President of the Board of Aldermen and the City Clerk be sent to the President of the United States and to our Representetives in the United States Senate, Hon. John R. McPherson and Wm J. Sewell and to our Representative in the House of Representatives, Hon. A. A. Hardenbergh for presentation to Congress.

The preamble and resolutions were unanimously adopted by the following vote, the yeas and nays having been ordered and taken on the call of the President.

Yeas—All the members of the Board.

By Alderman Datz and adopted:

Resolved, That the Police Department are hereby directed to prevent the laying of any rails over or on any streets of this city by the Delaware, Lackawanna and Western Railroad, without permission of this Board.

By Alderman Datz and adopted:

Whereas, The Delaware, Lackawanna and Western Railroad and their employes have, without authority, laid a railroad track east of Provost street, from their main track to 12th street, crossing several of the streets of Jersey City; and

Whereas, The said railroad company were notified before laying such track that they had no authority so to do; therefore,

Resolved, That a committee of three be appointed by the President for the purpose of bringing the matter to the attention of the present Grand Jury, and of proceeding criminally against such of the officers and employes of said company as are esponsible for said violation of law; and be it further

Resolved, That the Chief Engineer of the Board of Works be requested to assist the said committee when appointed.

Resolved, That the sum of $25 be paid to T. C. Long for services as messenger to Board of City Canvassers.

Whereas, The present wooden fence around Hamilton Park is worn out and no longer worth repairing; and

Whereas, A fence of locust posts and chain can be procured for about —— hundred dollars; therefore,

Whereas, The subject matter of taxation of all property within the city limits is one that ought to be considered by those who represent or control large properties the non-exemption of which from municipal taxation is felt to be a grievous wrong to our people; and

Whereas, The present agitation does not accomplish the desired result, because of the unwillingness of those in authority to meet the subject fairly and squarely as a matter of corporate existence or matter of justice to the people; and

Whereas, Concessions alike honorable to corporations and the people ought to be made which would be amicable and harmonious and at the same time just to all concerned.

Resolved, That his Honor the Mayor be requested to invite to a conference with a Committee of the city authorities at an early day, the Presidents of the Pennsylvania Railroad Company, the Delaware, Lackawanna and Western Railroad Company and the New York Lake Erie and Western Railroad Company for the purpose of considering the subject matter of municipal taxation of Jersey City and that said Committee consist of his Honor the Mayor, two members of the Board of Aldermen, and two members of the Board of Finance and Taxation to be appointed by the President of their Boards together with the Corporation Counsel and Attorney, and that the Mayor be requested to appoint three citizens of Jersey City to act on said Committee.

REPORT OF SELECT COMMITTEE.

The following report was presented, received and ordered filed, and subsequently, on motion of Alderman Gannon, ordered to be entered in full in the minutes and committee discharged.

Honorable Board of Aldermen:

Your special committee appointed March 14, 1882, to investigate as to the rumor at Trenton concerning alleged demands by members of the Board of Aldermen before they would consent to pass the ordinance granting certain privileges to the National Docks Railway Company, respectfully report that your committee addressed letters to Mr R. Robertson, member of Assembly, Senator Deacon, ex-Governor Bedle, Culver Barkalow and C. H. Benson, and in answer thereto received letters hereto annexed from Mr. Robertson and Mr. Deacon, denying the making of any charge or possession of any proof in relation thereto. Ex-Governor Bedle denied verbally to a member of your committee any knowledge or the making of any assertion derogatory to the characters of members of this Board. Your committee held a meeting in the City Clerk's office on Thursday, the 27th inst, at 3 o'clock p m, at which meeting all the members were present, Mr. C. H. Benson appeared and made a statement to the effect that during the last session of the legislature he was correspondent at Trenton of the *Evening Journal*, and private secretary of the President of the Senate, and that in the American House, Senator Deacon made the assertion that eight of the Alderman of Jersey City demanded $10,000 to pass an ordinance for the benefit of the National Docks Railway Company, and in a speech in the Senate referred to the subject matter of that assertion, which matter of news Mr. Benson communicated to the *Journal* and it was there published. The day following the publication several of the Aldermen visited Trenton and there brought Mr. Benson and Culver Barkalow together and Mr. Barkalow then and there acknowledged that he had used the assertion but could not prove it, and authorized Mr. Benson to deny in the columns of the *Journal* the truth of the allegations and retract every assertion that had been charged to him. Your Committee in conclusion respectfully report that the rumor as published and circulated never had any foundation and was one of those sort of vicious statements that was intended to help the passage of a bill then before the Legislature. Your Committee therefore ask to be discharged from further service

JACOB RINGLE,
WILLIAM H. FURMAN,
JAMES F. GANNON,
Special Committee.

Jersey City, April 27, 1882.

New York, April 17 1882.

My Dear Sir—You inform me of a report circulated in Jersey City to the effect that I have stated that there were eight members of the Jersey City Board of Aldermen who demanded ten thousand dollars as consideration for the passage of the ordinance relating to the proposed line of railroad from Point of Rocks to the Bay. You may state broadly that I have

never made any such assertion and that I have never had any reason upon which to base any such charge. I did hear while in Trenton a rumor or claim that money would secure the passage of the ordinance, but that was merely one of the hundreds of rumors or claims with which the members of the House were constantly regaled. I never heard any responsible person make any charge to the effect that eight men, or any other number, members of the Jersey City Board of Aldermen, demanded or desired ten thousand dollars or any other sum. I did hear while in Trenton that the Aldermen of Jersey City refused to act upon the ordinance in question until they could exact unfair concessions from the railroads, and this I thought was the fact. I considered it unfair for the Aldermen to demand concessions of right before acting upon an ordinary business matter. Yours sincerely,

R. ROBERTSON.

HON. WM. H. FURMAN.
Jersey City, N. J.

Mount Holly, N. J., April 25, 1882.

Messrs. William. H. Furman and James F. Gannon:

Gentlemen—Your communication informing me that a special committee appointed by the Board of Aldermen to investigate and report upon assertions made in Trenton of demands by the Aldermen of Jersey City in reference to the passage of the ordinance now before the Board granting certain privileges to the National Dock Railway Company, will hold a meeeting on Thursday next and requesting me to appear or send such information as I may have in relation thereto. I reply that I have never made any charges against the Board of Aldermen, and have none to make now and have no personal knowledge of any dishonorable transaction of the members of said Board in connection with the said railway company. All that I have ever said relative to the matter was what had been told me by two gentlemen whose names I gave one of your committee, and also every member of the Board who has spoken to me on the subject and on all occasions when spoken to about it gave the names of these gentlemen and said that I did not know whether the assertions they made were true or not. I have made this explanation to several members of your body and each at the time expressed themselves entirely satisfied so far as I was concerned.

Very respectfully yours,

W. BUDD DEACON.

Alderman Gannon of the Committee presented the following letter received by him after the meeting of the Committee;

No. 1 Montgomery street,
Jersey City, Arril 27, 1882.

Messrs. Furman and Gannon, Special Committee, &c.:

Dear Sirs —It was impossible to attend your meeting this afternoon, as requested, on account of necessary detention in court out of the city. I assume that my absence was of little importance as I cannot conceive of any fact or knowledge, or information on my part of a fact that would throw any light on the subject of your investigation. I know nothing about any assertions to which you refer in your letter concerning ordinances of National Docks Railway Company, or the action or conduct of any member of your Board in relation thereto. I have had no connection with the subject in a business way or otherwise, directly or indirectly. The whole scope of your inquiry is entirely beyond my knowledge or information. Thanking you for the politeness of your note, I am yours, respectfully,

J. D. BEDLE.
